Experienced Software Developer proficient in Python, JavaScript, and modern web technologies, seeking to apply my technical expertise and collaborative skills in a challenging role. Committed to contributing to innovative solutions and efficient development practices in a growth-oriented company. Eager to engage in continuous learning and utilize my adaptability to rapidly evolving tech environments to drive technological advancements and team success.

Technical Skills

- Programming Languages: Python 3, JavaScript ES6+, SQL, TypeScript
- Web Development: HTML/HTML5, CSS, Bootstrap, React, Redux Toolkit, Vue.js, Next.js, Django 4, Fast API, Node.js, Express
- Databases: PostgreSQL, MongoDB, MySQL
- DevOps & Tools: Docker, Apache Kafka, RabbitMQ, Git, Websockets, AWS
- Design & Development: Front-end Software Development, Back-end Development, Microservices, Domain-driven Design, Message Passing, Event Sourcing, Web Interfaces, UX/UI Design
- Others: React Hooks, JQuery, REST APIs, Strapi, Stripe

Application Development Experience

1. **Facebook Clone | Full-Stack Engineer (2023)**
   - Technologies: MongoDB, Express.js, React.js, Node.js, Socket.io
   - Responsibilities: Developed a sophisticated Facebook Clone using MERN stack. Integrated features like authentication, real-time notifications, post creation, friend system, and user profile management.
2. **Instagram Clone | Full-Stack Engineer (2023)**
   - Technologies: Vite, React.js, Tailwind CSS, Firebase
   - Responsibilities: Created a high-fidelity Instagram clone. Developed features like user authentication, content posting, comment system, and private messaging.
3. **Shopwise | Full-Stack Engineer (2022)**
   - Technologies: JavaScript, Firebase, Redux
   - Responsibilities: Developed a full-stack e-commerce website. Implemented features like product search, sorting, and filters, along with user authentication and Google sign-in.
4. **iShopper | Full-Stack Engineer (2022)**
   - Technologies: MongoDB, Express.js, Node.js, React.js, Stripe
   - Responsibilities: Developed a MERN stack e-commerce platform. Integrated features like multi-vendor support, admin dashboard, and payment systems.

Professional Experience

1. **Independent Contractor | Full-Stack Developer (Jan 2021 - PRESENT)**
   - Developed ChiqueChickShop, a responsive e-commerce site. Delivered online shopping experience with intuitive navigation and secure payment processing.
   - Spearheaded the revamp of Madamcoon, optimizing for responsive design, improved user experience, CMS integration, SEO optimization, and enhanced online visibility.
2. **NYPD | Police Officer (Jan 2019 – Jan 2021)**
   - Collaborated in a team to address emergency situations and ensure community safety.
3. **Chinese No.1 Restaurant | Restaurant Manager (Mar 2011 - Aug 2019)**
   - Managed operations, budget, and implemented online ordering process. Achieved 9% annual profit growth.

Education

- **Hack Reactor**, Advanced Software Engineering Immersive (Spring 2021 – Fall 2021)
- **John Jay College of Criminal Justice**, Bachelor's Degree (Fall 2014 – Spring 2017)
